

DATA PRIVACY MANAGER

Preparing America for
Emerging Privacy Regulations

PRIVACY IS AN URGENT AND CRITICAL ISSUE FOR COMPANIES

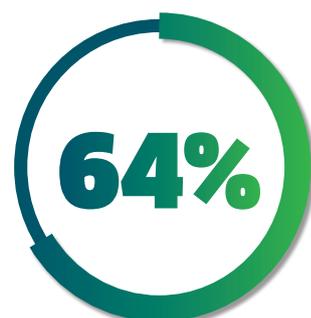

CONSUMERS ARE DEMANDING GREATER CONTROL OVER THEIR DATA

Consumers say they will take their business elsewhere if they don't trust that a company is handling their data responsibly.*

FEW COMPANIES HAVE SKILLS AND TOOLS FOR PRIVACY MANAGEMENT

50-80 percent of companies expected to be non-compliant, as of the start date of privacy laws in their respective jurisdictions.

REGULATORS ARE PASSING LAWS WITH STRICT TIMELINES AND PENALTIES FOR NON-COMPLIANCE

Businesses see privacy regulations as a top risk facing their organizations.**

Personal Data Protection Bill

MAPS TO KEY PRIVACY LAW REQUIREMENTS

FEATURES

Single Solution to Cover Global Privacy Regulations

- Single solution to support GDPR, LGPD, CCPA and PDPB and others that emerge

Most Automated and Configurable Platform

- End-to-end workflow automation
- Granular analytics using full business intelligence module deep configurability and rules engine
- Open API architecture to integrate with internal and external system

Out-of-the-Box Solution to Operationalize Privacy

- Pre-filled with FIS Data Inventory*
- Very powerful for clients using multiple FIS systems
- Pre-configured with requirements of privacy regulations

Comprehensive Platform Covering All Privacy Requirements

- Integrated platform covering all privacy requirements and modules:
 - Data inventory
 - Data subject rights management
 - Consent management
 - Targeted data discovery
 - Third-party risk management
 - Privacy assurance
 - Assessment automation

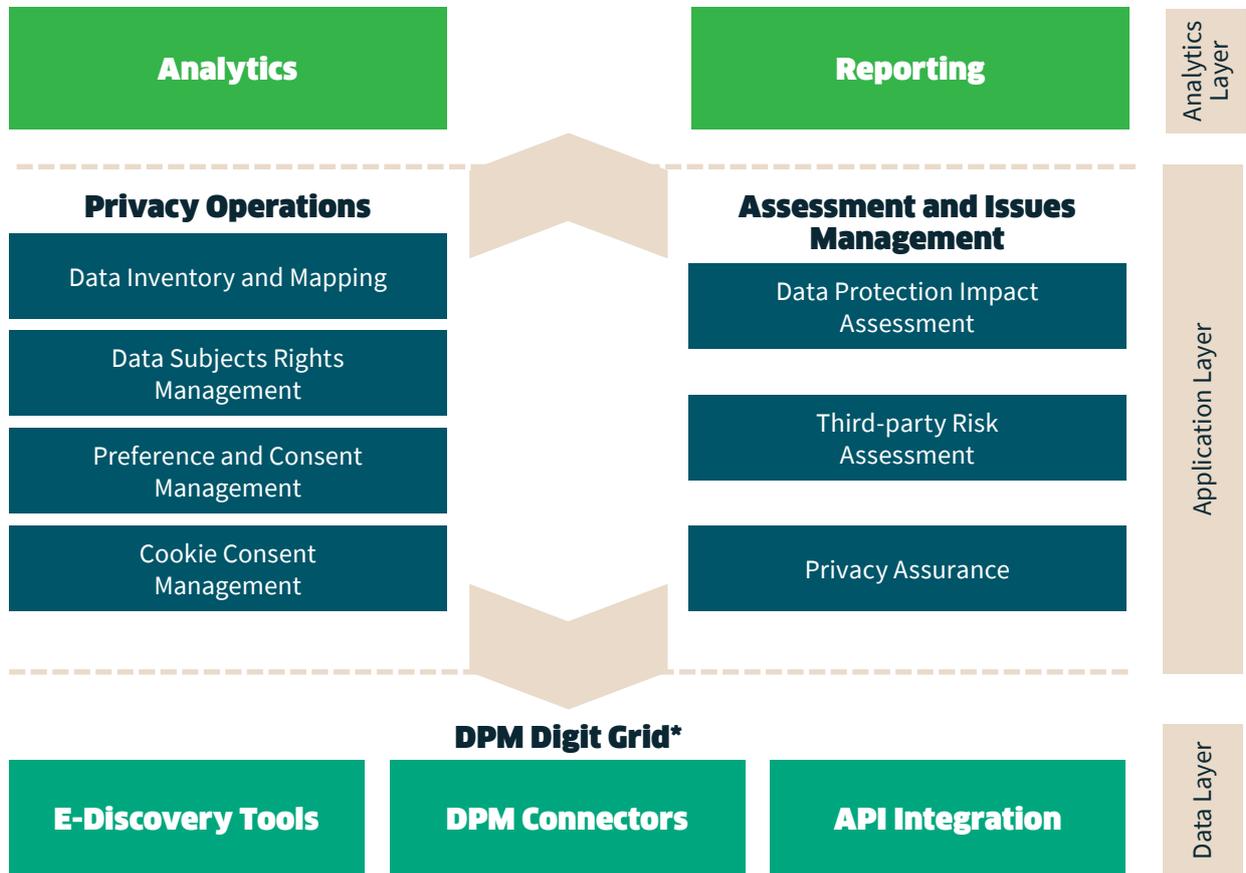

Expands to Cover New Regulations to Come

- Single solution to support new privacy regulations as they emerge

FIS Data Privacy Manager is the most advanced and comprehensive Privacy Management Platform in the Industry

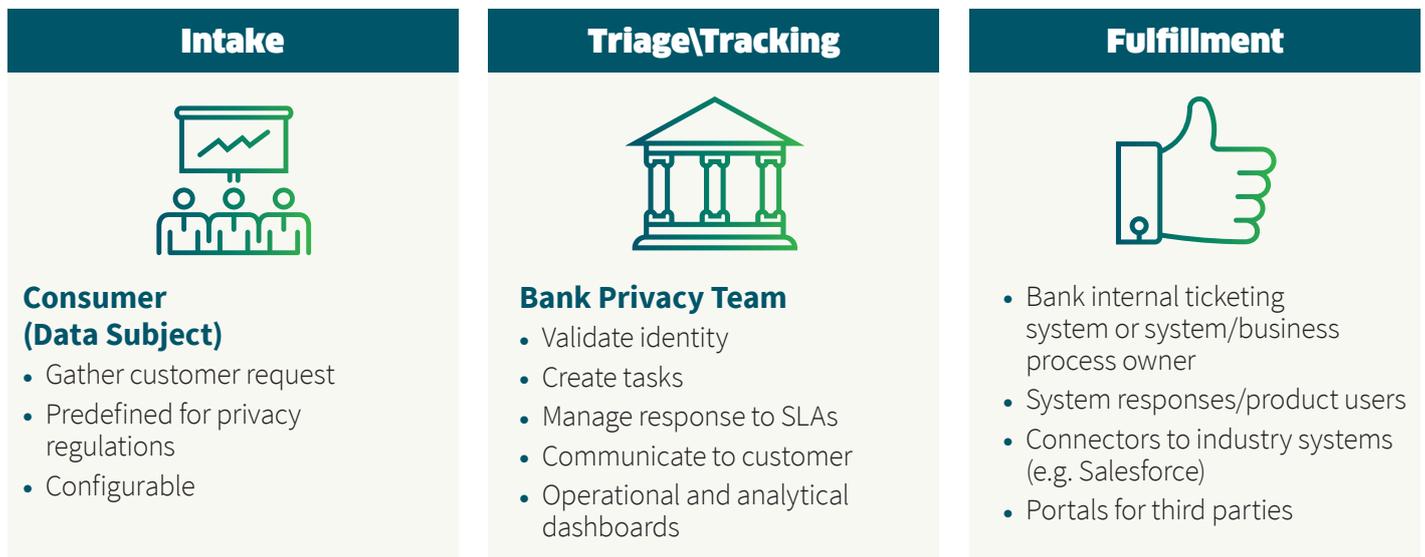

Next generation privacy and risk platform built on Automation, Analytics and Intelligence

DATA PRIVACY MANAGER (DPM) OVERVIEW

* Patented

PROCESS FOR HANDLING CONSUMER RIGHTS

KEY MODULES-PRIVACY OPERATIONS

Data Subjects Right Management

Workflow to intake and fulfil data subject requests efficiently and automatically

- End-to-end ticketing tool for responding to customer requests
