

# OPEN TEST SOLUTIONS (OTS) AS A SERVICE

---

Payment and card processing companies of every size have adopted virtual work, enabling employees to access systems remotely and perform routine tasks without disruption. Especially during the COVID-19 pandemic, a partnership model emerged which allows companies to leverage a service provider's existing infrastructure for specific tasks and duration, without the need to invest in in-house technology and support.

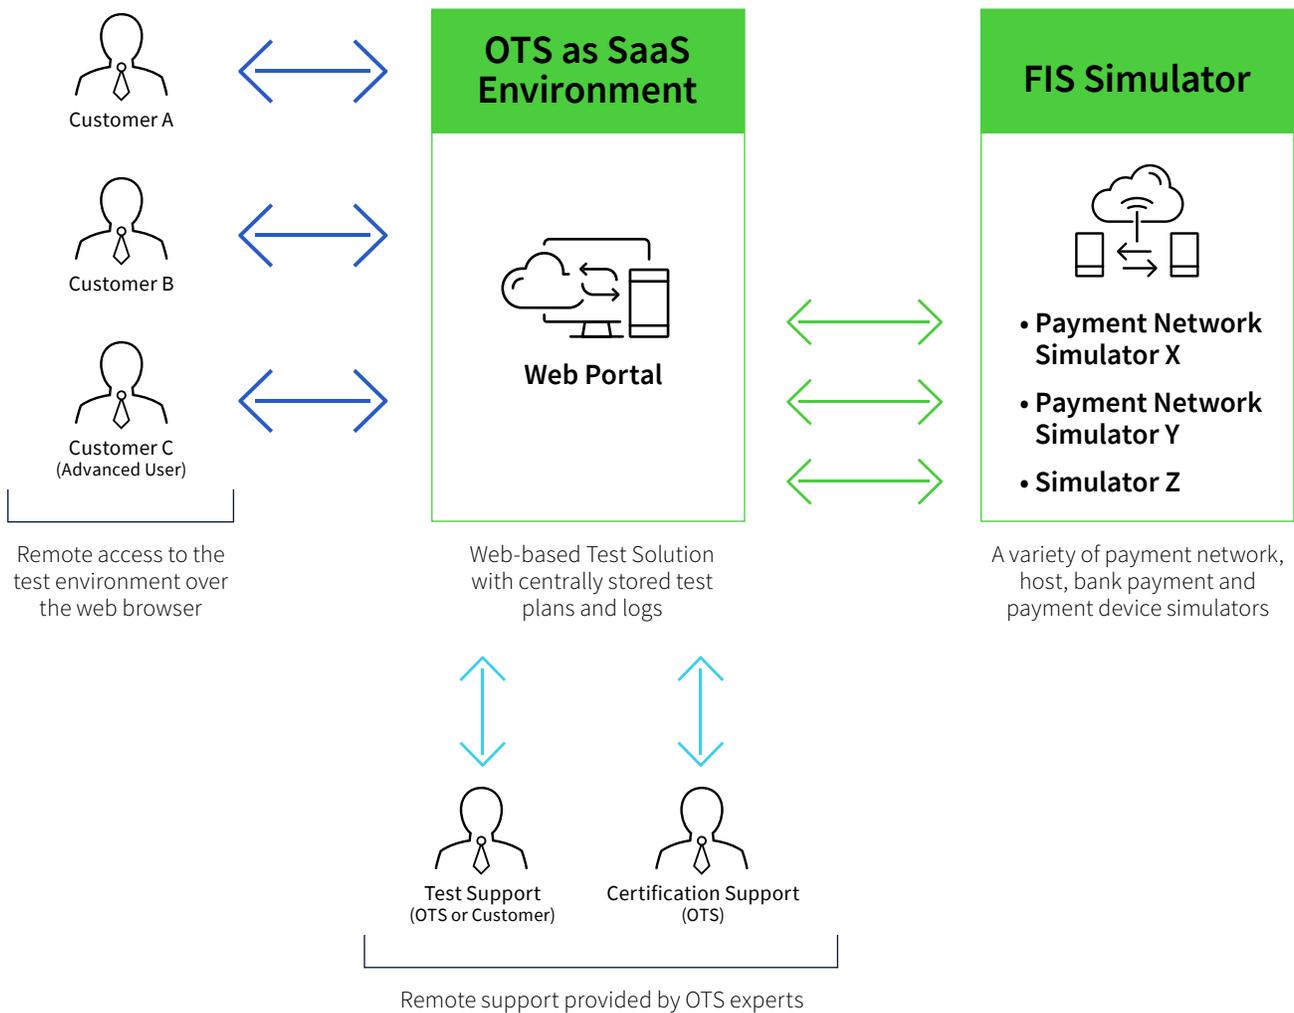

## **INTRODUCING OPEN TEST SOLUTIONS (OTS) AS A SERVICE**

OTS as a service is an FIS®-developed service model that offers access to card host test tools (including card network simulators and network certification test scripts) hosted in a secure and user-friendly environment. This enables clients to subscribe for a specific duration and meets the needs of companies who are looking for a secure, economical and quick alternative to test, validate and certify their systems.

**FIS' Open Test Solutions (OTS) as a service provides a scalable, robust and securely hosted system for testing, validation and network certification services on a flexible subscription model.**

# KEY FEATURES

- Highly horizontal and vertical scalable multi-user testing environment
- Remote access to certification tools using a web browser
- Tracking and reporting of testing and certification progress
- Reduced overheads for capital and internal support commitments
- Support at all levels:
  - Real-time monitoring
  - Test support
  - User support
- Advanced user level access to create custom test cases based on specific scenarios

## KEY BENEFITS

- **Secure and user-friendly test environment:** field-tested with major players in the payment industry
- **Always available:** 24/7
- **Flexible offer:** from three months up to multi-year access based on current requirements
- **Rapid deployment:** access to SaaS environment granted as early as 24 working hours after contract signing
- **No extra cost:** no installation or maintenance at the customer's location
- **Complete offering:** pre-defined functional and certification test suites available for major card networks and payment schemes
- **Value-added services:** custom test cases can be developed by the customer or by FIS OTS Professional Services
