Top 5 reasons to accept card payments

- **1. Boost sales** Increase revenue with a more convenient payment type for consumers.
- 2. Increase ticket size and capture impulse buys Shoppers using credit cards generally spend more and make more impulse buys than those carrying cash.
- **3. Improve cash flow** Credit cards give you faster and easier access to funds.

- **4. Enhance convenience** Consumers expect speed and efficiency during checkout. Paying with their credit or debit cards improves their experience.
- **5. Improve security** Card payments are more secure and easier to track than cash and checks.
- I've been through several implementations in all different areas that people say will be seamless payroll, insurance onboarding, etc. There are a million things that could happen, but working with Worldpay really was seamless. We didn't have any issues."
