

GROW YOUR BUSINESS WITH MERCHANT SERVICES

Merchant Solutions

Successful partnerships are agile and meet emerging needs. That's why your financial institution partners with Worldpay from FIS®. An industry leader in technology solutions. Worldpay is known for building successful business customer relationships in new ways.

Together, we can help simplify payment acceptance, improve the customer experience and accelerate revenue. You'll find it easier to navigate the payments landscape and get the expert service you deserve.

A capable and trusted partner

- In partnership with Worldpay, your financial institution offers a suite of payment solutions and technology to support your specific business needs.
- Your financial institution is an expert in business financial services and can help you navigate payments more efficiently and seamlessly.
- You've developed trust in your financial institution to handle some of your most private information and critical transactions. Merchant solutions is a natural extension of that trusted relationship.
- Through our relationship, you'll work directly with a trusted Worldpay account representative to better assist you with your business conversations.
- Our partnership enables fast and efficient response to inquiries with a three-tier level of dedicated support including customer service, technical service and relationship management.
- Your peace-of-mind is very important and Worldpay has the technology, tools and resources to help secure your business, customers and sensitive data.
- Worldpay offers payments data and insights to help identify areas you can reinvest in to drive growth.
- By trusting your financial institution with your merchant solutions, all your business-critical accounts are centralized in one place for a more convenient banking experience.
