The evolution of OmniShield

How Worldpay is leading the fight against fraud

Fraud is a \$112 billion industry, accounting for an average loss of \$35,600 per minute. With consumer confidence in their card issuers' ability to keep their data secure slipping, what's a financial institution to do?

We began asking this question years ago and set out to develop the top industry performing fraud solution. Worldpay has advanced the fight against fraud with its People, Processes and Technology.
