LENDING UNLOCKED

Leverage the latest technology to meet customers' expectations and reach under-served markets.
Only FIS can unlock your lending

Lending has changed dramatically. It’s no longer restricted to the walls of traditional financial institutions – it’s at the point of need.

Innovation changed the rules and customer expectations changed, too. Borrowers expect immediate approvals and a variety of lending options at their fingertips. To compete, your lending solutions must meet your customers’ evolving requirements quickly and comprehensively, now and in the future.

To do this you need access. Customers need access to capital. Financial institutions need access to customers across all segments, access to data and access to constant innovation that can lower risk. Everyone needs access to a trusted partner that can deliver an entire ecosystem of solutions from commercial to small business to consumer.

84% of lenders believe using alternative data sets will become the norm*

*What is shaping the ecosystem of small business lending, Economist Impact, 2021.

Are you ready to unlock your opportunities?
INCREASE YOUR ADVANTAGE

CHALLENGES

Growing borrower expectations for easy and innovative access

Inability to access capital inhibits small business growth qualification

Increasing fraud and security threats

Outdated, inefficient processes and tech stall competitive progress

Reliance on traditional credit factors restricts lending opportunities for new and underbanked customers

ADVANTAGES

Curated experiences via embedded finance and Buy Now Pay Later

FIS® banking and merchant ecosystem offering multiple types of financing

Modern fraud mitigation techniques leveraging AI and consortium data

Ecosystem of market-leading digital solutions integrated with back-office servicing

Alternative data products unlock previously inaccessible opportunities

We empower access to credit at the point of need - unlocking new acquisition channels for FIs.
