

GETPAID RECEIVABLES AUTOMATION

FIS™ GETPAID automates your credit-to-cash cycle with Artificial Intelligence, workflows, and collaboration to improve cash flow.

From the breadth of functionality and the embedded machine learning and artificial intelligence (AI), the GETPAID solution from FIS can help you effectively and efficiently manage your credit-to-cash processes.

Why leverage GETPAID?

1. AI in credit risk assessment

Risk assessment needs to be monitored frequently and consistently to be effective. GETPAID's AI engine monitors internal and external data sources to determine appropriate levels of risk and can even be leveraged to automatically set credit lines.

2. AI in cash application

GETPAID's AI engine learns customer remittance advice layouts through intelligent recognition. The machine learning engine also monitors user exception processing to learn how a payment was successfully applied to then leverage that method to automatically apply the next payment from that customer.

3. AI in deduction and dispute management

GETPAID can automatically identify deductions and disputes and appropriately route them for resolution. These speeds up the cycle time for resolution and sets a foundation for root cause analysis and future prevention.

4. AI in collections management

GETPAID's AI engine accurately predicts delinquency risk, 60 days in the future. This risk assessment is used to automatically assign appropriate collection strategies and prioritization of accounts. Leveraging this risk assessment, the AI engine helps your team to proactively address accounts before they become delinquent

FEATURES AT A GLANCE

CREDIT MANAGMENT

- Online credit application
- Automated credit reviews
- Integrated credit bureau data
- Configurable scorecards

STRATEGIC COLLECTIONS

- AI-driven risk-based collections
- Integrated email with AI interpretation & responses
- Business defined templates
- Real-time AR with AP interface

DEDUCTION AND DISPUTE MANAGEMENT

- Automatic identification & routing
- Advance workflow with auto-approvals
- Root cause analysis & reporting

CASH APPLICATION

- Intelligent document & data recognition
- Accelerated machine learning with auto-clearing
- Straight-through processing for all payments

COLLABORATION TOOLS

- Customer Portal (EIPP)
- Sales & Service Portal
- Salesforce.com App
- Two-way API integration for CRM systems

ADVANCED REPORTING

- User configurable dashboards
- Real-time daily operational metrics
- Ad hoc report & dashboard creation

PRIMARY BENEFITS

IMPROVE DAYS SALES OUTSTANDING (DSO) CASH FLOW

IMPROVE DECISION MAKING & COLLECTION PRIORITIZATION

IMPROVE OPERATIONAL EFFICIENCY

IMPROVE CUSTOMER EXPERIENCE & INTERNAL COLLABORATION
