Partner Bulletin: Cleaning Countertop Devices

We know merchants want to maintain a clean and healthy shopping experience for their customers. To that end, our countertop terminal vendors have published instructions for the proper cleaning of their respective terminals:

- [Ingenico Cleaning Instructions](#)
- [How to Clean Verifone Devices](#)
- [Guide for PAX terminals](#)

We recommend that you pass along these instructions to your internal teams and merchants as appropriate. As always, we appreciate your business.
