

PAYMENTS MADE EASY WITH SIMPLE PAYMENT LINKS

Payment links sent directly to your customers by email.

You don't need a website to take payments online. Give customers a quick and easy way to pay by including unique payment links with your emails, quotes, order confirmations, or invoices.

- ✓ No joining fees
- ✓ No website is needed to take payments online
- ✓ Quick and easy setup

Who can use Pay by Link?

Pay by Link is useful for all kinds of businesses. A wholesaler taking a telephone order, a venue or hotel confirming a booking, a tradesman or builder providing services to householders.

How it works?

1. Log in to your online portal.
2. Enter the payment details and create the link.
3. Send the link to your customer. Your customer can follow the link to our secure payment page and make payment.
4. Your customer receives a receipt via email to confirm their payment. The payment and payment-status will show in your online portal.

Features

An easy to use portal

Set up payment links and create emails in your online account.

Hassle-free PCI DSS compliance

Letting your customers enter their payment details via the secure link reduces your compliance requirements.

All major credit cards and debit cards available

Let customers pay whichever way they choose.

Unique payment links

Copy links into emailed documents for easy settlement by your customers.

Take international payments

Send payment links internationally for potential new business opportunities.

Customisable payment pages and emails

Use your own logo and branding.

"We can email customers with an invoice containing a payment link which they click on to settle the invoice with a card. This eliminates the need for us to take those payments over the phone."

Shirley Bowman, Managing Director, Etag Fixings

Click here to learn the full story of how Etag Fixings uses Pay by Link to take payment remotely during lockdown.
