FASTER, EASIER, SAFER PAYMENTS WITH
FIS DISBURSE PAY

A one-to-many, B2C payment solution

Find out more
LET’S BRING PAYMENTS INTO THE DIGITAL AGE

Payment expectations have changed dramatically in recent years. Your corporate customers’ employees and other payees want to receive their refunds, rebates, incentives, paychecks and other payments immediately, simply and securely.

And the payment expectations inside your organization have changed as well. Issuing paper checks has proven to be time consuming, costly and vulnerable to fraud, and legacy check processing systems are becoming quickly outdated, unable to support digital payments. Moreover, traditional payment methods require your corporate customers to hold sensitive bank information like bank account information, mailing addresses and phone numbers within their databases.

There has to be a faster, easier, safer way to make payments to your corporate customer’s recipients and meet the expectations of your internal and external stakeholders. And now there is.

Introducing Disburse Pay, the new one-to-many, B2C payment solution from FIS. Disburse Pay offers a secure way for your corporate customers to digitally distribute payments to many recipients, instantly, eliminating the cost, delays and risks of paper checks and creating a fast, easy and secure payment experience for their recipients.

Eliminate the risk of paper-based fraud by switching to a completely digital solution for AP with Disburse Pay, an FIS B2C payments solution.
EXCEED EXPECTATIONS FOR ALL YOUR CORPORATE CUSTOMERS ONE-TO-MANY PAYMENTS

Your corporate customers’ recipients want to receive their refunds and rebates immediately. Taxpayers want their refunds in days, not weeks. Individually waiting for emergency assistance or insurance claims have no time to wait. And gig-economy workers who have embraced e-commerce platforms to make their livings want their paychecks to come at the speed of digital too.

And whether you are issuing funds to your corporate customers’, taxpayers, insurance beneficiaries or employees, all of their recipients want to receive payments simply, seamlessly and safely.
EXCEED EXPECTATIONS FOR ALL YOUR CORPORATE CUSTOMERS ONE-TO-MANY PAYMENTS

Whatever the need, Disburse Pay can support a broad range of businesses and organizations in their efforts to create frictionless payment experiences. FIS Disburse Pay is ideal for:

• Retailers/consumer brands: issue rebates, refunds or rewards
• Restaurants: distribute server tips
• Gig-economy companies: pay hourly workers
• Property management: return security deposits
• Government entities: disburse tax refunds, benefits, subsidies and more
• Insurance and healthcare agencies: pay claims and refunds
• Relief organizations: distribute funds quickly to those in need
• Checks are more costly and time consuming than digital payments. In fact, the average estimated cost of issuing a check is $5.91.*

• When surveyed, 74% of companies reported attempted or actual payments fraud.** Checks increase the risk of fraud by revealing valuable information including your organization’s logo, DDA number, bank routing number, the check number series and the authorized signature.

• Sensitive payee information must be collected and retained in your corporate customers’ databases to process check payments, creating risk.

• Recipient dissatisfaction increases with payment delays or uncertainty of receipt.

• Slow check payments are missed opportunities to boost recipient loyalty through fast, easy, secure digital payments.

Disburse Pay offers significant benefits to your corporate customers and their recipients.

Benefits to your corporate customers:
• Protect the payment process
• Reduce overhead associated with check payments and manual processes
• Implement real-time payment options
• Eliminate the collection and storage of personal information
• Track payment status
• Set expiration dates for funds to be claimed
• Enjoy payment visibility and support services through our comprehensive customer service tool (CST)

Benefits to your recipients:
• Faster access to money
• Easy and seamless receipt of payments
• Protected financial information for a secure payment experience
• Flexibility to choose payment method
Disburse Pay makes it easy for your corporate customers to electronically distribute disbursement payments to almost any recipient with a U.S. bank account.

1. Payment instruction file is sent to FIS
2. FIS alerts recipients of their payment via email or text
3. Recipient takes action by selecting preferred payment method and providing payment details
4. Recipient receives payment

With Disburse Pay, your corporate customers can mitigate risk because their organization no longer needs to obtain and hold sensitive payment data for their recipients. Track and monitor their payments with visibility into payment activity and expirations, viewable daily or as needed.
