

FIS LOAN TRADING

FORMERLY LOANTRAK

Flexible Loan Trading Software to Automate Your Trading Desk

The syndicated loan asset class is complicated and unique. Managing a loan trading desk requires specialized, built-for-purpose tools that allow the desk to increase trading volumes without increasing staff or sacrificing accuracy.

FIS® Loan Trading (formerly LoanTrak) is an enterprise-scale loan trading solution that automates all of the essential activities of a par or distressed loan trading desk.

Loan Trading supports diverse and global trading desks while including the rich market and role-specific functionality that your trading operation requires.

Loan Trading is available as a standalone solution for commercial lending or as part of the FIS® Commercial Lending Suite, an integrated front-to-back-office solution with built-in workflow and analytics for the entire commercial loan process.

INCREASE AUTOMATION AND REDUCE ERRORS

Streamline essential trading and administrative tasks while reducing errors across common trading activities.

EMPOWER YOUR DESK WITH AN ALL-IN-ONE SOLUTION

Manage your trading desk with a single, powerful and real-time system that's tailored for the syndicated loan market.

SUPPORT GROWTH

Drive your trading business forward without increasing costs – while eliminating redundant tasks and reducing errors in virtually every loan trading function.

FIS LOAN TRADING

Flexible Loan Trading Software to Automate Your Trading Desk

ACCESS A REAL-TIME VIEW

Get an up-to-the-second view of your position inventory and trading P&L.

SUPPORT MULTIPLE TRADERS, PORTFOLIOS, LOCATIONS AND CURRENCIES

You can give senior management a global view of the business without sacrificing the deep market-specific functionality that your traders, salespeople and closers need.

SATISFY YOUR STAKEHOLDERS WITH ONE SOLUTION

With one solution, you can deliver trade capture, real-time position and P&L monitoring to traders; automatic confirms, funding memos and tools for managing the settlement workflow to closers; and robust, role-based and application-level security, two or three-touch trade approval and verification, position aging and limit tracking to risk managers.

Empower your loan management.
