

BillerIQ

Transform traditional billing and payment processes with innovative, reliable and secure tools that modernize operations.

Demand for seamless digital experiences is growing

FIS®, the financial technology company that connects the global economy, offers AR, AP and revenue optimization tools which together address all B2B payments needs.

The flexible, user-friendly and scalable solutions within Automated Finance use AI and machine learning to provide predictive analytics and real-time insights, turning manual error-prone processes into streamlined, automated workflows.

As part of Automated Finance's Receivables Automation suite, BillerIQ helps businesses lower operational costs, improve efficiency and enhance customer satisfaction.

BillerIQ is a white labeled SaaS biller direct solution that optimizes payment processes and enables straight-through processing and automated reconciliation. The solution facilitates bill delivery and payment acceptance through multiple digital channels, including web, mobile, automatic recurring payments and more. The product also supports highly personalized experiences such as personalized bill design and targeted messaging.

BillerIQ's valuable cost and efficiency benefits help the CFO's office drive growth and boost the bottom line.
