FORMERLY FAME FUTURES

## Standardize Data Services, Improve Data Quality and Streamline Operations

Financial products have grown in complexity, forcing sell-side firms to maintain new and complex datasets at the same time as increased regulatory scrutiny adds a layer of compliance risk and cost.

To keep up, firms must eliminate manual data entry and duplicated data maintenance across systems.

**FIS® CD Clearing Market Data** (formerly Fame Futures) is a centralized repository of settlement data, contract set-ups and market fees.

With coverage across more than 100 derivatives exchanges, CD Clearing Market Data standardizes data services across applications, improves data quality and streamlines your day-to-day operations.

You can use CD Clearing Market Data as a golden source or integrate it with your own referential to feed settlement and contract data as well as market fees. It simplifies the back-office maintenance of membership types, incentive programs and other factors that can result in more than 10,000 fee rate records on a single system.

Reduce your operational risk and increase efficiency with a future-proof platform that seamlessly works with both legacy and in-house systems.

### REDUCE MANUAL PROCESSES

By automating key processes CD Clearing Market Data reduces operational risk and increases efficiencies by freeing up operations team resources.

### IMPROVE DATA QUALITY

Access accurate data in a timely and standardized manner, with metrics and KPIs on delivery performance and data quality.

### MANAGE EXCHANGE AND CLEARING FEES

Rely on an automatic feed of accurate, audited fee schedule data delivered straight into your back-office system.
