

# DIGITAL ONE ACCOUNT OPEN

The easy, fast and paperless way for your customers to open new accounts at any time from any device

## Easy, convenient account opens in 5 minutes or less

As your bank modernizes its platform you've probably already looked to digital banking to acquire new customers like millennials, the mass affluent and the underbanked. But turning these prospects into customers is easier said than done. Customers expect an easy and accessible experience no matter what. The Digital One platform helps banks build, deploy and scale their next generation digital experiences. More specifically, FIS® Digital One Account Open gives your bank that opportunity by making it easy to digitally apply for, fund and open accounts in five minutes or less...all from the comfort of home or on the go.

## Applications and deposits on the rise

The result...higher application completion rate, more customers and more deposits. FIS Digital One Account Open is a truly customer centric experience with an easy-to-use, modern user interface. Applicants can use any device and quickly move through the application process.

Additionally, they can pull information from existing accounts or verify identity with ID capture. Applicants can also start and resume applications on any device or in the branch or contact center. It's the power of convenience that only FIS Digital One can provide. Extensive funding options empower customers to get their accounts up and running in under five minutes while you get quick access to their deposits.

## What is your modernization strategy?

Your customers expect a seamless digital experience from any device. They may not care how you make it happen, but they sure notice when you don't. And they are not afraid to switch banks to get it. When you're powered by Digital One, a single engagement platform, you raise the bar for what banking should be, in every channel. Digital One morphs disjointed banking processes into a seamless and simple experience for your customers and employees.

Digital One enables your bank to engage customers throughout their life journeys, resulting in deeper, longer lasting and more profitable customer relationships. It gives you the power to transform every customer interaction into a relationship-building opportunity while showing them how banking should be -- in every channel.
