## The Solution that Automates Statutory Filing for Insurers

---

Manually transferring and calculating investment data increases the risks and complexities involved in insurers' statutory reporting. With tight deadlines, you need to speed up processing time, reduce errors and improve control from end to end.

**FIS® Insurance Statutory Reporter** simplifies quarterly and annual statutory filing with state insurance departments and the NAIC by automating the entire process. The ready-to-use solution integrates seamlessly with other systems, including FIS' solutions for insurance financial and investment accounting, to increase accuracy and efficiency.

No wonder FIS' insurance business serves more than 2,000 clients in over 80 countries.

### **ELIMINATE MANUAL DATA ENTRY**

---

Transfer and calculate thousands of amounts between schedules and generate all components of the filing with a single click.

### **CONTROL REPORTING PROCESSES**

---

Easily track the progress of schedules, while displaying errors and formulas and providing a complete audit trail.

### **ACHIEVE COMPLIANCE**

---

Configure the ready-to-use solution to meet your specific filing and statement design requirements or outsource to FIS as an end-to-end service.

The Solution that Automates Statutory Filing for Insurers

## AUTOMATE STATUTORY FILING WITH EASE

Insurance Statutory Reporter can rapidly import and export data via automated data interfaces. Display a formula and the amount it references in one click and see crosscheck errors and formulas with links to corresponding data.

## CALCULATE WITHOUT COMPLICATION

Our data entry screens look just like annual and quarterly statement pages. You can see the entire schedule on one screen and keep multiple schedules open at the same time. Override calculated cells with one click while easily changing the tolerance level for crosschecks. And automate the preparation of both the cash flow page and Schedule P.

## REPORT WITH CONFIDENCE

With input data saved automatically, you can easily track all the changes you make to a statement through an audit trail – and back up the statement to an archive file. You can also link straight to NAIC instructions to clarify the finer points of the reporting process.

**Transform your statutory reporting for the better.**
