

FIS REINSURANCE MANAGER

A Complete Automated Solution for Ceded Reinsurance Management

As reinsurance plays a more prominent role in reducing risk, ceded contracts are also increasing in quantity and complexity. Without fully automated systems and processes, you can struggle to calculate and track reinsurance efficiently and get a clear view of your operation's health and wealth.

FIS® Reinsurance Manager provides a complete, centralized solution for ceded reinsurance management, with the automated, auditable infrastructure you need to improve efficiency, deepen analytics and standardize information.

Scalable and source-independent, Reinsurance Manager provides secure, repeatable processes for contract maintenance, billing, and operational, financial and statutory reporting. So, you can streamline your reinsurance operations and make them as effective and productive as possible.

REDUCE COMPLEXITY

Manage and track the most complicated reinsurance contracts with flexibility while minimizing your operational costs.

DRIVE ACCURACY

Eliminate errors by automating and integrating processes, and reducing reliance on spreadsheets and legacy systems.

TAKE CONTROL

Run auditable and repeatable reinsurance operations and provide complete oversight with real-time reporting and analytics.

FIS REINSURANCE MANAGER

A Complete Automated Solution for Ceded Reinsurance Management

IMPROVE CONTRACT MAINTENANCE

With a central reinsurance repository underpinning your operations, Reinsurance Manager allows you to handle both treaty and facultative contract maintenance more easily and automatically calculate excess of loss and proportional reinsurance, and premium and loss cessions.

REPORT EFFECTIVELY

The solution provides a library of standardized but fully customizable management and operational report formats, and a powerful online financial reporting tool. Plus, you can facilitate statutory reporting with our optional FIS® Reinsurance Regulatory Manager.

BILL AND PAY AUTOMATICALLY

Integrating seamlessly with your general ledger and supporting multiple billing document formats, Reinsurance Manager automates both accounts payable and accounts receivable processes, as well as the aging of payables and receivables, and open balance monitoring.

Manage reinsurance with less risk and complication.
