

FIS SECURITIES NETWORK

FORMERLY SGN SECURITIES

The Solution that Automates the Entire Trade Life Cycle

As instruments and trading venues expand, investment strategies change and regulations continue to be introduced, you need flexibility, automation and high-performance connectivity – within a cross-asset environment.

FIS® Securities Network (formerly SGN Securities) automates the entire end-to-end trade life cycle for institutional asset managers, hedge funds, custodians and broker-dealers. Combining advanced routing and transformation logic with extensive industry expertise, this powerful straight-through processing (STP) solution helps you maximize operational efficiency, manage risk and pursue returns.

Securities Network enhances the pre-trade process by delivering indications of interest (IOIs) and global market data directly to your traders' workstations. It then routes orders through our robust global network with one connection linking broker, custodian and interested party destinations. And our post-trade messaging solutions support allocations, settlement notifications, confirm services and SWIFT capabilities. Bring your trade life cycle together with one solution and empower your team to pursue growth.

ACCESS NEW GROWTH

Connect to the global trading community via advanced routing and transformation logic.

STREAMLINE TRADE PROCESSING

Simplify your trade confirmation and affirmation processing with dedicated, high-speed connectivity.

ENHANCE ORDER ROUTING

Quickly route algorithmic, high-touch and direct market access (DMA) orders, incorporating custom tags and strategies.

FIS SECURITIES NETWORK

The Solution that Automates the Entire Trade Life Cycle

TRANSFORM YOUR SETTLEMENTS

Transmit allocation instructions to any broker-dealer and/or counterparty destination worldwide, regardless of format. And simplify your complex settlement requirements to ensure that proper instructions are delivered to the appropriate destinations.

AUTOMATE YOUR MESSAGING

Our complete suite of fully automated custodial and interested party messaging services integrates with your existing order management system. Outbound protocols include SWIFT, FIX, proprietary, web format or standard extracts.

MINIMIZE YOUR MARKET IMPACT

View relevant real-time liquidity from trading partners for faster trade analysis and informed negotiations.

Transform your entire trade life cycle.
