## A Single, Integrated Platform that Supports the Full Trading Life Cycle for Broker-dealers

Increased regulatory scrutiny. Unpredictable tech costs. Disruptive competitors. Thinner margins. The pressures broker-dealers face today will forever change the economics, strategy and operation of their businesses.

As firms make the decisions that will drive their future, they must be able to meet new customer demands, expand their offerings, and reduce the cost, complexity and risk of their operations.

That's why we've brought together our leading solutions for securities processing in our Securities Processing Suite.

**FIS® Securities Processing Suite** is the only solution that supports the full trading life cycle with real-time data on a single integrated platform.

Backed by modern technology, decades of industry experience and our dedication to innovation and strategic partnership, you can refocus on your real business – from trading and order management to settlement and asset servicing – while giving your customers actionable access that satisfies their demands.

Streamline, consolidate and automate your securities operations for greater agility and a lower total cost of ownership (TCO), while achieving smarter operations, total life cycle support and a quicker return on investment.

### CONTROL YOUR TCO

With a predictable economy-of-scale pricing model, you can reduce your costs – today and in the future – with no surprises.

### MAXIMIZE EFFICIENCY ACROSS MULTIPLE LINES OF BUSINESS

Consolidate multiple business lines, asset classes and currencies onto a single, real-time back-office solution.

### REDUCE REGULATORY RISK

We provide mandated upgrades and industry requirements at no extra cost to you, so you can reduce risk and focus on growth.
