

# INVESTOR ONBOARDING WITH ANDUIN

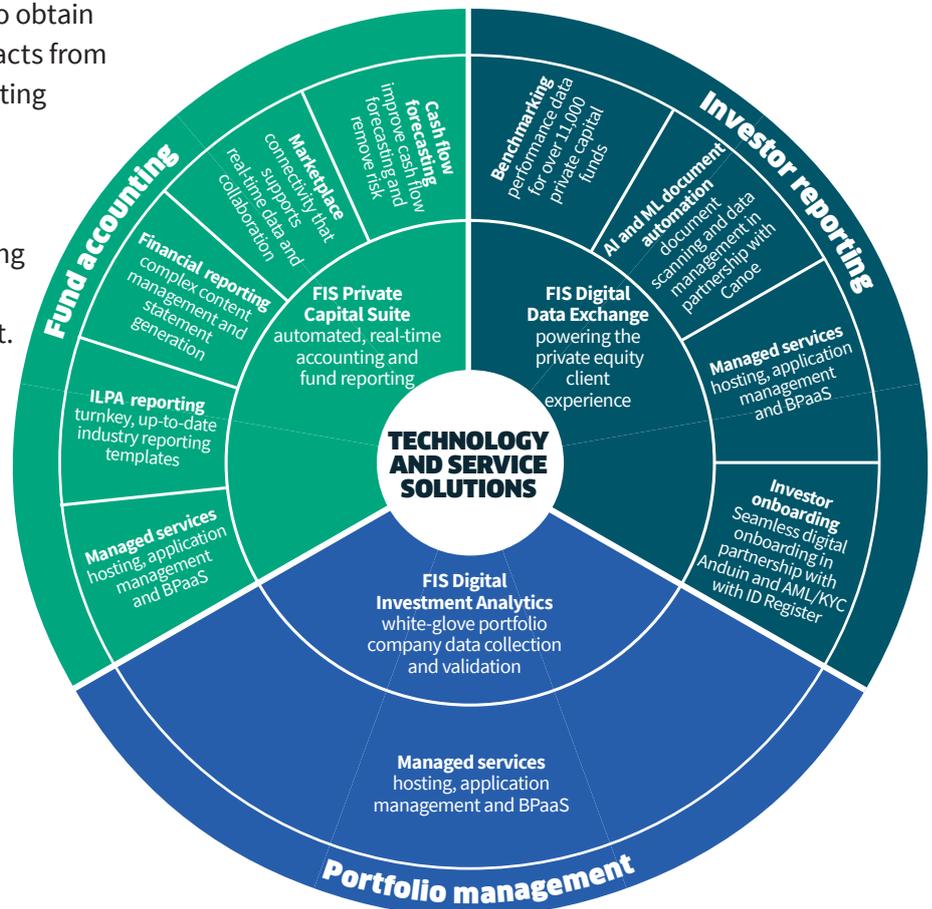

## FIS® Private Capital Suite and Anduin working together

A new partnership between FIS and Anduin is set to streamline the investor onboarding process for both general partners (GPs) and limited partners (LPs).

In the private equity world, the investor onboarding process can be manually intensive and error prone. Qualifying new investors often requires mailing documents back and forth to investors to obtain information, and differentiation in contracts from GP to GP can lead to further issues in getting investors subscribed to funds.

Anduin’s Fund Subscription platform digitizes the investor contract by providing a user friendly, intuitive webform that adjusts dynamically as investors fill it out. For example, certain questions will only need to be answered if investors are based in specific locations. Investors can use the webform to send queries and interact with the GP before electronically signing and submitting the form. Once information has been submitted, GPs can use their own compliance solutions to carry out KYC and AML checks.

As a result of the new partnership, users will be able to access Anduin’s Fund Subscription platform through FIS Digital Data Exchange on a single-sign-on basis, providing a straightforward user experience. Integration with FIS Private Capital Suite will initially be file-based and will subsequently become even more seamless through the use of APIs.

# FIS DIGITAL DATA EXCHANGE - INVESTOR ONBOARDING WITH ANDUIN

## BENEFITS FOR FIS CLIENTS WILL INCLUDE:

A seamless experience for all participants in the onboarding process

Efficiency improvements through simplification and digitization

Reduced errors and costs

Real-time progress tracking and communication
