

# CARDMOD

The modern card management experience

## A digital experience tool to guide financial decisions

Cardholders are demanding greater card control and better insights on their personal finance. As technology that personalizes digital banking becomes readily available, cardholders want solutions that will allow them to control everything from the palm of their hands.

Without a digital-first card management app, you may be afraid that your fraud losses will continue to climb and your cardholders will leave you for a more contemporary institution. What's the answer? Provide them with the feature-rich capabilities, enabling cardholders as the first line of defense to reduce fraud losses - even as the fraud landscape continues to evolve.

## Introducing FIS CardMod

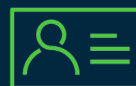

CardMod empowers cardholders to control, monitor and manage card usage from their phone. This gives them the power and full range of card control capabilities, including the ability to manage their cards anywhere and anytime, freeze and unfreeze their card, analyze and control spending and prevent fraud. Based on your financial institution's digital strategy, you can choose your delivery channel from standalone application to APIs, which keeps your institution connected and allows for quick integrations and solution updates.

### Improve your portfolio

- Increase revenue
- Lower fraud
- Reduce fraud-related expenses

**Acquire and manage**  
Enables your customers to add and manage their cards anytime and anywhere

**Protect**  
Protect your cardholders from fraud through card, merchant and transaction controls

## Enhancing and simplifying the cardholder experience

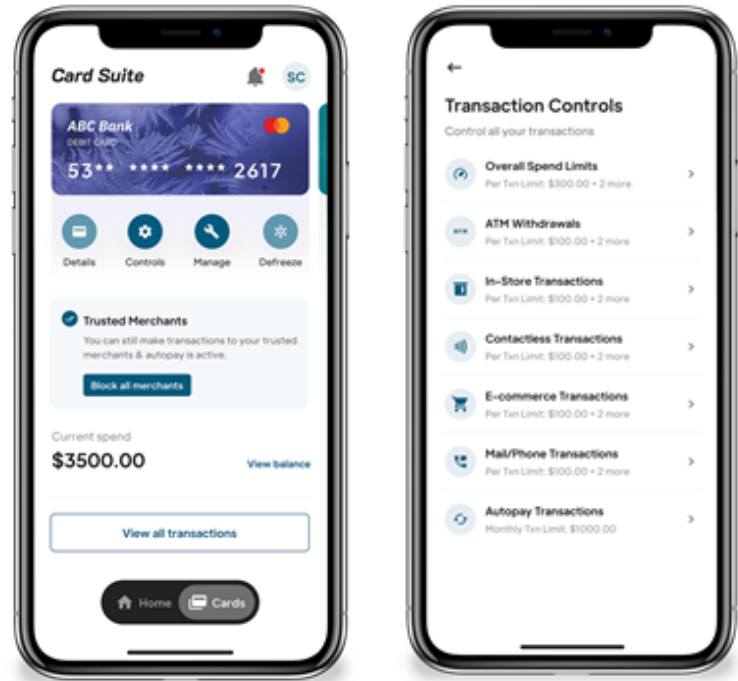

CardMod is a self-service credit and debit card controls application that is designed to seamlessly blend into the daily life of your cardholders.

The clean and simple UI allows for a quick login where your cardholders can freeze and unfreeze their cards and view their spend and transactions across multiple cards from your institution. You can use this card management application to assist your cardholders in managing and protecting their financial lifestyle.

Rather than being just another banking app, CardMod is an essential tool that will guide your cardholders' future decisions.
