

FIS GLOBAL NETWORK SUITE

FORMERLY SGN

The Solution that Automates Trading Processes and Manages Operational Compliance and Risk

New instruments and trading venues, changing investment strategies and relentless regulations challenge your business processes every day. You need flexible, high-performance, open connectivity with global counterparties to better manage risk and growth.

FIS® Global Network Suite (formerly SGN) helps you automate trading processes while managing operational compliance and risk. It offers scalable, global connectivity and services for a broad variety of funds offerings.

Global Network Suite brings together FIS® Funds Network (formerly SGN Funds), FIS® Securities Network (formerly SGN Securities) and FIS® Short-Term Cash Management (formerly SGN Short-Term Cash Management) for complete support across trade submission, post-trade communication, analytics and reconciliation. With one trusted partner, you can manage risk, increase transparency and make more confident decisions.

STREAMLINE TRADE FLOWS

Achieve straight-through processing among brokers, fund companies, investor recordkeeping and accounting systems.

MAXIMIZE OPERATIONAL EFFICIENCY

Automate the entire end-to-end trade life cycle for institutional asset managers, hedge funds, custodians and broker-dealers.

INCREASE TRANSPARENCY AND VISIBILITY

Access research and submit trades and manage securities – including equities, fixed income securities, mutual funds, money market funds, short-duration bond funds and FDIC-insured deposit products.

FIS GLOBAL NETWORK SUITE

The Solution that Automates Trading Processes and Manages Operational Compliance and Risk

ENHANCE ORDER ROUTING

A single connection to broker, fund, custodian, interested parties and back-office systems reduces the time-consuming and costly task of managing individual connections simplifying your end-to-end order processing.

AUTOMATE MESSAGING

Our complete suite of fully automated trading, custodial and third-party messaging services integrates with your existing back office and order management system. Outbound protocols include SWIFT, FIX, proprietary, web format or standard extracts.

REDUCE RISK

Benefit from a secure and resilient trading network and a dedicated 24/6 support team.

Power your trading processes.
