

5 ways to simplify asset servicing

Unlock smarter operations with FIS solutions

Discover innovative ways to simplify asset servicing with FIS®. Learn how you can reduce risk, improve efficiency and make your capital work harder through unified, automated solutions.

1. Simplify your operations

Disconnected systems create risk and inefficiency. FIS brings corporate actions, proxy voting, class actions and tax reclaims into a unified platform, helping to minimize manual workarounds, reduce vendor complexity and enhance operational control.

Benefits: Simplify operations, reduce risk

2. Automate to scale

Manual processes often can't keep up with today's volume or complexity. FIS uses automation and AI to help streamline workflows, reduce errors and free your team to focus on value-added work – so you can scale with greater confidence.

Benefits: Boost efficiency, cut costs

3. Stay audit-ready

Global regulations evolve fast and staying compliant shouldn't slow you down. FIS solutions are designed to embed compliance into workflows with automated audit trails and real-time data visibility, to help you prepare for the next regulatory change.

Benefits: Ensure compliance, reduce exposure

4. Adapt with agility

Markets move fast. FIS' modular architecture is designed to give you flexibility to scale services, support new asset classes and respond quickly to regulatory or market shifts with limited disruption.

Benefits: Future-proof operations, support growth

5. Gain real-time visibility

Siloed data limits decision-making and transparency. FIS solutions are designed to deliver holistic views across asset servicing functions, putting your data to work to help you make faster, smarter decisions.

Benefits: Improve decisions, enhance transparency

Discover how FIS helps simplify asset servicing, reduce risk and unlock the full potential of your capital. Start your transformation today.

Put your capital to work

Get in touch

Money at rest Money in motion Money at work™

Unlock asset servicing for growth, enhanced efficiency, accuracy and compliance.

Our **technology** powers the global economy across the money lifecycle.

Money at rest

Unlock seamless integration and human-centric digital experiences while ensuring efficiency, stability, and compliance as your business grows.

Money in motion

Unlock liquidity and flow of funds by synchronizing transactions, payment systems, and financial networks without compromising speed or security.

Money at work

Unlock a cohesive financial ecosystem and insights for strategic decisions to expand operations while optimizing performance.
