

FIS PROFILE CORE BANKING SYSTEM

FACT SHEET

The future of core banking systems

As a global banking institution, you need a reliable and proven solution to navigate the complexities of today's financial landscape. The FIS® Profile™ core banking system is designed to manage money as it moves through the global economy, maximizing future opportunities and reducing cost of ownership, ultimately protecting your profits and propelling your business growth.

Where innovation meets excellence

Stay ahead of the curve in the ever-evolving banking industry with the Profile banking system. With real-time and multicurrency capabilities, operate your business around the clock and the globe. Utilize decades of industry expertise and leading-edge technology to launch new bank types, expand into digital banking and add new product lines. Reduce risk, compliance issues and fraud, while carving your unique niche in the market, exploring untapped markets and complying with shifting regulations.

The Profile banking system offers a high-functioning, real-time, multicurrency and multilingual platform, serving as your foundation to business success. Leverage its deposit, loan and customer information systems using its "use what you need" structure. With various deployment models and proven scalability, it handles 100 million accounts on a single instance, reducing infrastructure costs, lowering operational expenses and boosting productivity. Equip your bank to compete and win in the dynamic banking landscape.
