

# FIS COMMERCIAL LENDING SUITE

## A Configurable, Cloud-enabled Solution Powering Commercial Lending

---

In today's volatile economic climate, it's imperative for commercial lending departments to tailor loan offerings to customer requirements amidst the complexity of substantial transactions and stringent regulatory landscapes. Managing interest rate risks and minimizing operational errors through technological advancements and automation becomes critical.

When adopting solutions, financial institutions must consider factors such as ease of use, access to real-time data and implementation costs to mitigate both operational and marketplace risks effectively.

That's where FIS® comes in. FIS Commercial Lending Suite is a configurable, cloud-enabled solution that both expands your digital channels and helps you build stronger banking relationships through a complete, fully integrated front-to-back solution for commercial lenders' origination, credit assessment and servicing needs.

The FIS Commercial Lending Suite helps financial institutions to save time and reduce rework or mistakes from the manual touchpoints, while the integration to the credit assessment toolkit drives clear and informed underwriting decisions and provides a policy framework to encapsulate the credit rating approvals.

### DRIVE GROWTH

---

Attract customers of all sizes, cut response times and boost revenue with a fully digital solution.

### KEEP DOWN COSTS

---

Better connect systems, improve efficiency and eliminate errors with a modular, open platform.

### KEEP UP UNDERWRITING STANDARDS

---

Get a 360-view of the customer and ensure detailed credit risk assessment across all lending relationships.

# FIS COMMERCIAL LENDING SUITE

A Configurable, Cloud-enabled Solution Powering Commercial Lending

## AUTOMATE AND INTEGRATE

Manage the complete lending life cycle on one powerful solution with configurable workflow and analytics or choose from plug-and-play modules.

## SATISFY YOUR CUSTOMERS

Streamline processing, automate decisioning and make it easier to share customer documentation. And support real-time applications.

## ORCHESTRATE CREDIT ASSESSMENT

Route applications through the most appropriate set of assessment processes for the type and size of firm or deal. Automate where possible, but also provide opportunities to analyze and discuss more deeply.

## DIGITIZE ALL DATA

Efficiently reuse data from a central deal file, eliminating manual processes and re-keying errors. And make it easier to adhere to credit risk policies, onboard information and monitor facilities.

## SIMPLIFY OPERATIONS

Run the solution on-premise or move it to the cloud where we can manage the software and infrastructure for you. Use open APIs to integrate data gathering, bureau searches, credit scoring and decisioning.

**Modernize your  
commercial lending today.**
