THE NORTHERN TRUST COMPANY SUB-ADVISED COLLECTIVE FUNDS TRUST THE GLOBEFLEX INTERNATIONAL ALL CAP COLLECTIVE FUND

INVESTMENT OBJECTIVE July 31, 2021

The GlobeFlex International All Cap Collective Fund

The Fund will be maintained with the objective of achieving superior total returns on investing activities, primarily through capital appreciation of securities positions. The Fund will principally focus on the buying and selling of common stocks of non-U.S. companies, whose securities the Sub-Advisor believes have the potential for significant appreciation, sometimes on a short-term basis, and, to a lesser extent, buying, selling and holding other securities, such as preferred stocks.

Independent Auditors' Report

Reliance Trust Company, as the Trustee of The Northern Trust Company Sub-Advised Collective Funds Trust The GlobeFlex International All Cap Collective Fund:

We have audited the accompanying statement of assets and liabilities of The GlobeFlex International All Cap Collective Fund including the statement of investments, as of July 31, 2021, and the related statement of operations and changes in net assets, and the financial highlights for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The GlobeFlex International All Cap Collective Fund as of July 31, 2021, and the results of its operations, changes in its net assets, and the financial highlights for the year then ended in accordance with U.S. generally accepted accounting principles.

STATEMENT OF INVESTMENTS (Continued)

July 31, 2021

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in three levels listed below:

Level 1 - Unadjusted quoted market prices in active markets for identical securities on the measurement date.

Level 2 - Other observable inputs (e.g., quoted prices in active markets for similar securities, securities valuations based on commonly quoted benchmark interest rates and yield curves, maturities, ratings and/or securities indices). The Fund adjusted the price of certain foreign equity securities held in its portfolio on July 31, 2021 using adjustment factors designed to reflect more accurately the fair value of securities. See Note A for a discussion of this procedure. The fair valuation of these securities resulted in their categorization as Level 2 investments.

Level 3 - Significant unobservable inputs (e.g., information about assumptions, including risk, market participants would use in pricing a security).

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities and other financial instruments, if any. The following table summarizes the valuations of the Fund's investments by the above fair value hierarchy as of July 31, 2021:

⁽²⁾ Certain investments that are measured at fair value using net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statement of Assets and Liabilities.

NOTES TO THE FINANCIAL STATEMENTS

The Northern Trust Company Sub-Advised Collective Funds Trust ("Trust") is intended to constitute an exempt trust under Section 501(a) of the Internal Revenue Code of 1986, as amended, and a group trust within the meaning of Rev. Rul. 81-100, as clarified and amended. The Trust is exempt from registration under the Investment Company Act of 1940, as amended, and the Securities Act of 1933, as amended. The Trust was originally effective October 21, 2008. It was subsequently amended and restated effective as of January 10, 2011 and October 1, 2017. For the period of October 21, 2008 through September 30, 2017, The Northern Trust Company ("NTC" or "Initial Trustee") served as the Initial Trustee of the Trust. Effective October 1, 2017, Reliance Trust Company ("Reliance" or "Trustee") became the Trustee of the Trust. The Trustee has ultimate responsibility for management, investments and operations of the Trust. As of July 31, 2021, the Trust was comprised of fourteen funds, each of which is maintained as a separate collective trust fund for accounting and tax purposes. This report pertains to The GlobeFlex International All Cap Collective Fund ("Fund"). The Fund commenced operations on February 05, 2015.

Reliance is chartered by the State of Georgia and regulated by the Georgia Department of Banking and Finance. Reliance is a wholly-owned subsidiary of Reliance Financial Corporation, both of which are headquartered in Atlanta, Georgia. Reliance Financial Corporation is a holding company which owns several financial services companies. Reliance Financial Corporation and its affiliates have been in business since 1975. Reliance Financial Corporation is an indirect wholly-owned subsidiary of Fidelity National Information Services, Inc. (NYSE: FIS).

The Trustee has appointed GlobeFlex Capital, L.P. ("GlobeFlex") as sub-advisor of the Fund and to provide investment advice and recommendations with respect to the investment of the Fund's assets. While the Trustee generally relies on GlobeFlex to manage the Fund's assets, the Trustee maintains ultimate fiduciary authority over the management of, and investments made in, the Fund. GlobeFlex is engaged pursuant to a sub-advisory agreement. NTC serves as the custodian of the Fund's assets and fund administrator of the Trust.

The Fund, which is an investment company within the scope of Financial Accounting Standards Board ("FASB") Accounting Standards Update 2013-08, follows accounting and reporting guidance under FASB Accounting Standards Codification Topic 946, "Financial Services- Investment Companies".

Note A – Summary of Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Fund. These policies are in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The presentation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results may differ from those estimates.

Investment Valuation

Investments are stated at fair value. Securities traded on U.S. securities exchanges or in the NASDAQ Stock Market, Inc. are generally valued at the regular trading session closing price on the exchange or market in which such securities are principally traded. If any such U.S. security is not traded on a valuation date, it is valued at the most recent quoted bid price. Over-the-counter securities not reported in the NASDAQ Stock Market, Inc. are also generally valued at the most recent quoted bid price. Fixed income securities, however, may be valued on the basis of evaluated prices provided by independent pricing services when such prices are believed to reflect the fair market value of such securities. Such prices may be determined taking into account securities prices, yields, maturities, call features, ratings, institutional size trading in similar groups of securities and developments related to specific securities. The values of securities of foreign issuers are generally based upon market quotations, which, depending upon local convention or regulation, may be the last sale price, the last bid or the mean between the last bid and ask price as of, in each case, the close of the appropriate exchange or other designated time. Foreign fixed income securities may, like domestic fixed income securities, be valued based on prices provided by independent pricing services when such prices are believed to reflect the fair value of such securities. Spot and forward foreign currency exchange contracts are generally valued using an independent pricing service. Short-term investments of sufficient credit quality are valued at amortized cost, which approximates fair value. Certain other investments may be valued based on quotations from independent brokers. Shares of open-end investment companies are valued at net asset value ("NAV"). Any securities for which no current market quotations are readily available are valued at fair value in accordance with valuation procedures established by the Trustee. The Trustee, in its discretion, may make adjustments to the prices of securities held by the Fund if an event occurs after the publication of market values normally used by the Fund but before the time as of which the Fund calculates its NAV, depending on the nature and significance of the event, consistent with applicable regulatory guidance. This may occur particularly with respect to certain foreign securities held by the Fund, in which case NTC, as directed by the Trustee, may use adjustment factors obtained from an independent valuation service that are

NOTES TO THE FINANCIAL STATEMENTS (Continued)

intended to reflect more accurately the fair value of those securities as of the time the Fund's NAV is calculated and are classified as Level 2 investments. The use of fair valuation involves the risk that the values used by the Fund to price its investments may be higher or lower than the values used by other unaffiliated investment companies and investors to price the same investments.

Investment Transactions and Investment Income

Investment transactions are accounted for on a trade date basis (the date the order to buy or sell is executed). The Fund determines the gain or loss realized from investment transactions by using an identified cost basis method. Dividend income is recorded on the ex-dividend date or, for foreign securities, as soon as the information is available. Dividend income is net of foreign withholding taxes for foreign securities. Tax reclaim receivables, where appropriate, are recorded as foreign dividend and interest accruals and their applicable withholding accruals are processed on ex-date. Interest income is recorded on the accrual basis and includes accretion of discounts and amortization of premiums on fixed income securities.

Foreign Currency Transactions and Translations

Values of investments denominated in foreign currencies are converted into U.S. dollars using the exchange rates provided by WM/Reuters normally as of approximately 3:00 pm Central time. The cost of purchases and proceeds from sales of investments, interest, and dividend income are translated into U.S. dollars using the spot market rate of exchange prevailing on the respective dates of such transactions. The gains or losses, if any, on investments resulting from changes in foreign exchange rates are included on the Statement of Operations and Changes in Net Assets with net realized gains (losses) and unrealized appreciation (depreciation) on investments. The realized gains (losses), if any, on translations of other assets and liabilities denominated in foreign currencies are included in net realized gains (losses) on foreign currency transactions on the Statement of Operations and Changes in Net Assets, as applicable.

The Fund is authorized to enter into spot contracts in order to buy or sell a certain amount of foreign currency at the current market rate, with settlement occurring within four business days. The Fund is authorized to enter into spot contracts in order to make payments, or to receive payments, based on trading activity in a foreign currency. A spot contract allows the Fund to buy or sell foreign currency on the day it chooses to deal. All foreign currency exchange contracts are marked-to-market daily at the applicable exchange rates and any resulting unrealized gains or losses are recorded in net changes in unrealized appreciation (depreciation) on translation of other assets and liabilities denominated in foreign currencies on the Statement of Operations and Changes in Net Assets. The realized gain or loss on foreign currency exchange contracts includes the gain or loss from translation of the contracts at current exchange rates. Such gains or losses are included in net realized gains (losses) on foreign currency transactions on the Statement of Operations and Changes in Net Assets. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. The Fund bears the market risk from changes in foreign currency exchange rates and the credit risk if the counterparty to the contract fails to perform. The contractual amounts of foreign currency exchange contracts do not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered. The Fund entered into no foreign currency exchange contracts, other than spot contracts, during the fiscal year ended July 31, 2021.

Note B - Admissions and Withdrawals

The Fund is valued on a daily basis, based on the ending number of units outstanding and the total net assets of the Fund. Purchases and redemptions are recorded at the unit value determined on the valuation date and shall be made only in accordance with the terms of the Declaration of Trust. Any purchases or redemptions requests received on or prior to July 31, 2021, for payment in August 2021, are recorded as Receivable for Fund Units Sold or Payable for Fund Units Redeemed. Net investment income and realized gains from security transactions are not distributed to participants, and are reinvested in the Fund.

At July 31, 2021, one participating trust held 100% of the Fund's total Units Outstanding.

Note C – Income Taxes

The Fund meets the requirements of the Internal Revenue Code ("IRC") Section 401(a) and is exempt from taxation under IRC Section 501(a) as provided for by Revenue Ruling 81-100 (as modified by Revenue Ruling 2011-1 and Revenue Ruling 2014-24). Accordingly, no provision for federal, state, or local income tax is required.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Management has evaluated uncertain tax positions of the Fund and has determined that a liability is not required to be recorded in the financial statements as of July 31, 2021. Although the Fund is exempt from taxation, the Fund files annual information returns. The annual information returns of the Fund for the years for which the applicable statutes of limitations have not expired remain subject to examination by the IRS.

No amounts for interest or penalties have been recognized in the Statement of Operations and Changes in Net Assets or in the Statement of Assets and Liabilities.

Note D - In-Kind Transactions

Participants in the Fund may elect to receive or deliver securities rather than cash for their redemption or purchase in accordance with the provisions of the Trust. These participants receive or deliver securities with a fair value equal to the value of the number of units they own at the current NAV at the redemption date or purchase date.

Gains and losses on the securities that were distributed to participants, if any, were included in Net Realized Gains (Losses) on Securities Transactions, and the redemption amounts were included in Unit Transaction Redemptions on the Statement of Operations and Changes in Net Assets.

There were no in-kind contributions or in-kind redemptions during the fiscal year ended July 31, 2021.

Note E – Fees and Expenses

Expenses are accounted for on an accrual basis. In accordance with the Declaration of Trust, the Fund is charged for those expenses that are directly attributable to the Fund. Certain expenses arising in connection with a particular tier of units are charged to that tier of units. Expenses incurred that do not specifically relate to an individual tier are allocated among all of the tiers in the Fund in proportion to each tier's relative net assets.

For trustee and management services provided to the Fund, Reliance receives an annual base fee of \$25,000 and asset-based fees at annual rates set forth in the table below expressed as a percentage of the Fund's Average Daily Market Value ("AMV"). These fees are accrued daily and payable monthly.

Fund	Trustee Fee Rate	Fund's AMV
The GlobeFlex International All Cap Collective Fund	0.06%	First \$100,000,000
	0.05%	Next \$200,000,000
	0.04%	Over \$300,000,000

Reliance, as Trustee of the Fund, has entered into a sub-advisory agreement with Globeflex. As compensation for sub-advisory services, Globeflex is entitled to an advisory fee from each investor, accrued daily and payable monthly at annual rates set forth in the table below expressed as a percentage of AMV.

Fund	Advisory Fee Rate	Average Daily Market Value
The GlobeFlex International All Cap Collective Fund	0.65%	First \$50 million
	0.60%	Next \$50 million
	0.55%	Next \$50 million
	0.45%	Next \$150 million
	0.40%	Over \$300 million

For compensation as custodian, transfer agent, fund administrator and for compliance services, NTC receives an amount based on a pre-determined schedule of charges.

Pursuant to a contractual agreement, GlobeFlex has agreed to cap Administration Fees at 0.14% per annum. Administration Fees shall include trust compliance, fund accounting, fund administration, transfer agency, global custody, audit services and any other fees for services provided to the Fund. The cap shall not include any expenses relating to the Fund's investment and trading activities, including,

without limitation, brokerage commissions, foreign exchange fees, "bid-ask" spreads, mark-ups, regulatory and other governmental fees, taxes and transactional charges or to any other third party fees or expenses incurred by or on behalf of the Fund. During the year ended July 31, 2021, the Investment Advisor agreed to reimburse the Fund \$49,520 pursuant to the expense cap agreement.

The Fund did not engage in cross-trading activities during the fiscal year ended July 31, 2021.

Note F – Investment Risks

Foreign Investment Risks

To the extent the Fund invests in foreign securities, it may be subject to risks due to the potential for political and economic instability in the countries where the issuers or these securities are located. In addition, foreign exchange fluctuations could affect the value of positions held. These risks are generally intensified in emerging markets.

COVID-19 Risk

The COVID-19 global pandemic that began in early 2020 has continued to generate uncertainty in financial markets worldwide. Due to the rapidly changing dynamics of the situation, it is difficult to estimate the pandemic's enduring effects, but there is risk that the resulting disruptions to trade and industry may lead to a continued global economic slowdown that could impact the performance of the Fund's investments.

Note G – Indemnifications and Warranties

In the ordinary course of business, the Fund may enter into contracts or agreements that contain indemnifications or warranties. Future events could occur that lead to the execution of these provisions against the Fund. The maximum exposure to the Fund under these provisions is unknown as this would involve future claims that have not yet occurred. However, the Fund has not had prior claims or losses pursuant to these contracts and believes the risk of loss to be remote.

Note H – Subsequent Events

These financial statements were approved by management and available for issuance on September 28, 2021. Subsequent events have been evaluated through this date.
