

## Banking Case Study AMBIT TREASURY MANAGEMENT

# UKAR Enhances Treasury and Risk Management with FIS

UK Asset Resolution Limited (UKAR), the holding company established to bring together the government-owned businesses of Bradford & Bingley plc (B&B) and NRAM plc, has replaced its treasury and risk platform with FIS' Ambit Treasury Management solution, helping to integrate two disparate businesses into a consolidated infrastructure and provide a single overview of treasury and risk.

An existing FIS balance sheet risk client, UKAR has seamlessly integrated Ambit Treasury Management with the Ambit Asset Liability Management (ALM) solution. This provides UKAR with a comprehensive framework for balance sheet management, bringing together treasury, risk and finance operations.

FIS has been instrumental in the success of this project, and we already have demonstrable benefits as all transactions are now centralized on a single system and we have already significantly enhanced risk mitigation.

**ROGER HALES,**  
HEAD OF FINANCIAL OPERATIONS, UKAR.

### The Challenge

- UKAR required a right-sized, single platform to support all of its entities.
- UKAR needed to address the strategic, operational and risk management requirements of its treasury across the front, middle and back office.
- The firm needed to ensure the orderly management of the balance sheet.

### Our Solution

- FIS' integrated treasury management solution supports all of UKAR's treasury requirements.
- The solution provides UKAR with real-time insight into funding, liquidity and pricing needs.
- Consolidated risk and position management tools help to reduce UKAR's operational and transaction risk.
- Hosted and managed services help UKAR focus on core competencies and better control operating costs.

### Customer Benefits

- UKAR has streamlined treasury operations and enhanced risk mitigation by integrating trading, funding, position management and risk assessment of multiple asset classes into one system.
- The firm has automated transaction flows across the front, middle and back office and eliminated manual processes.
- Users can see a complete and accurate view of credit, market and operational exposure.

### About UK Asset Resolution Limited (UKAR)

UKAR was established on 1 October 2010 to facilitate the orderly management of the closed mortgage books of both Bradford & Bingley (B&B) and NRAM to maximise value for taxpayers, while ensuring that both companies continue to treat customers fairly, deliver consistently high levels of service and support those customers facing financial difficulty. Further information about UKAR is available at [www.ukar.co.uk](http://www.ukar.co.uk)

### About FIS' Ambit Treasury Management

FIS' Ambit Treasury Management addresses the strategic, operational and risk management requirements of a bank's treasury across front, middle and back-office, helping the treasurer to safeguard and steward the bank's financial assets and effectively manage its liabilities. The solution suite helps the treasurer assure liquidity by providing comprehensive up-to-date data on cash, funding and exposures; assure solvency by providing a centralized source of information for robust reporting, planning and decisionmaking; protect revenue by providing an accurate view of asset/liability positions, the hedging overlay and performance attributions; and finally manage the impact of customer flow on liquidity by providing greater visibility and control beyond treasury.
