

FIS™ Private Equity Rainmaker

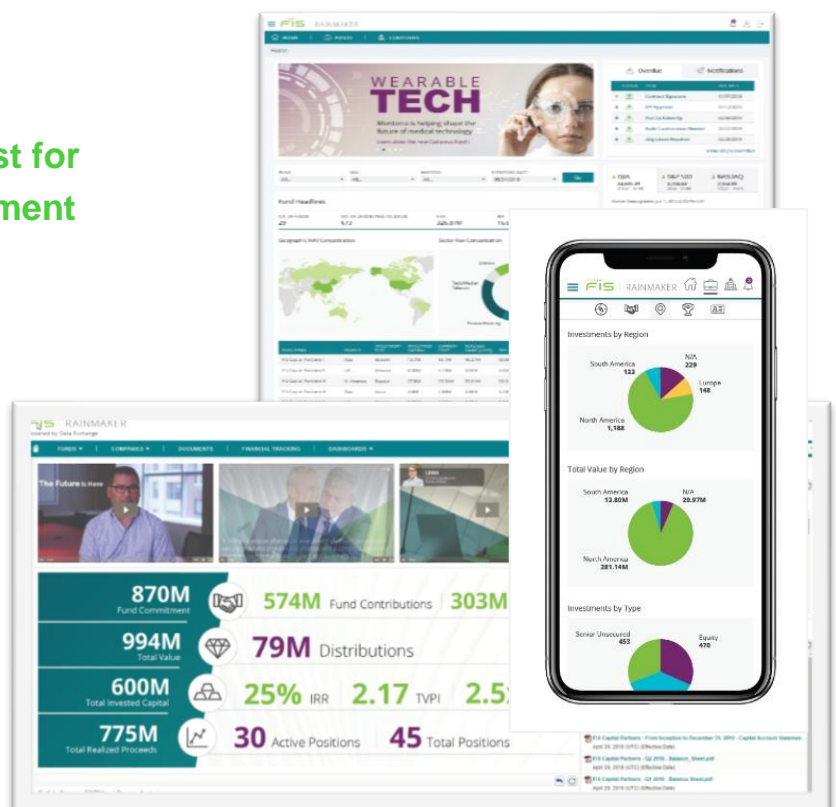

Data Sheet

Empowering Fund Managers to Make the Best Decisions Fast, Based on Timely Data They Can Trust

Private equity firms are seeing unprecedented opportunity, driving a thirst for actionable data to stay competitive and grow. But, data management across the ecosystem of a private equity firm has long been time-consuming, error-prone, and, some would even say, painful.

With Rainmaker, the forecast for private equity data management is finally clear

Combining a powerful data and analytics dashboard with award-winning managed services, FIS™ Private Equity Rainmaker automates data management processes and streamlines portfolio analysis – providing deal teams with the transparency they need to make investment decisions that deliver growth.

Private Equity Rainmaker empowers you to:

Strengthen Investment Decision-Making and Results

Have a better Monday morning meeting knowing that portfolio company data is accurate, up-to-date and thorough. With your portfolio data compiled, validated and visualized by our technology and managed services, and accessible from a computer, tablet or mobile device, insights – not assumptions – are at your fingertips. With Rainmaker, investment leads and deal teams can have confidence in their data, empowering them to take decisive actions that support alpha generation and ongoing growth.

Increase Front-Office Efficiency

With Rainmaker, the days of wasting time chasing down portfolio company insights and attempting to reconcile mismatched formats and data points are over. Our award-winning managed services professionals take portfolio company data collection and validation off your plate so that you can focus on what you do best: making deals and generating value.

Create a Unified View of Insights Across the Firm

Because Rainmaker has been developed by the experts behind market-leading middle- and back-office fund accounting solution Investran, FIS is empowering our private equity clients to create a comprehensive, unified view of data and insights across the firm. Our technology and services give our clients the ability to integrate portfolio company data with fund data in an entirely new – and effective – way.

Is Private Equity Rainmaker Right for You?

Ask yourself these questions to see if the time is right to consider a new approach to private equity data management. If you answer yes to any of these questions, Private Equity Rainmaker could be the solution you need:

- Are you currently collecting and reporting on your portfolio company KPIs?
- Do you get requests to provide information to the deal team for Monday morning meetings?
- Do you find it difficult to understand which data has been reviewed and validated, wondering if your data sets are estimates or assumptions?
- Would your team benefit from having access to portfolio company data in a mobile experience?
- Are you looking to achieve a standard data model with key financial metrics that matter to your firm?

READY TO SEE THE ALPHA THROUGH THE CLOUDS?
