

# SMARTPAY SERIES

**Business solutions built for you**

## Accept payments your way

With the flexibility that fits your style and bundled solutions that fit your business, the SmartPay Series puts you in control. Experience the security, support, and versatility you need for modern day payment acceptance.

Your business is unique. Your customers are unique. Many businesses are forced to choose a cookie-cutter point of sale (POS) system, but now it's easier than ever to build a solution that's flexible to meet your business needs. Choose the right mix of payment devices and business apps, then add more devices and apps as your business grows.\* Plus get hands-on support and guidance from our dedicated support team.

**Carbon 10**

**Carbon 8**

**Pax A920**

## Smart devices

Choose your POS setup from options spanning a compact mobile device to a large, high-definition tablet color display. A modern payment device helps engage customers, streamline checkout, and improve business operations. Add accessories to support your business model such as a stand alone order printer, scanner, cash drawer, or a charging base.\*

## Essential apps

Modify your POS by selecting from modern business applications designed to help your business thrive. From inventory tracking and loyalty programs to employee scheduling and payroll management, we offer vertically-focused bundled packages designed for your specific business needs.

## Faster and safer payments

Accept EMV chip cards, mag stripe, and NFC/contactless payments such as ApplePay. Our fraud and payment security assurance bundle helps protect your business from counterfeit or fraudulent cards and safely transmits card data for processing. View all payment activity, transaction reports, and high-level metrics in your iQ customer portal.
