

# REGULATORY UNIVERSITY

Regulatory University contains a library of more than 250 courses covering safety, soundness and consumer protection laws and regulations, high and emerging risk issues, products and services, and other topics of relevance to multiple lines of business.

## Robust Learning Management System

Regulatory University offers a robust learning management system (LMS) with cutting-edge, risk-based reporting, tracking and analytics that allow you to deploy and manage training enterprise-wide.

Over 1,500 financial institutions and creditors throughout the U.S. rely on Regulatory University to train and educate employees and examiners.

## Best-in-Class Content Meets Risk-based Reporting

FIS strives to always be first in the industry to develop new training – sometimes months before competitors. And, the solution's content is incomparably comprehensive, with more than 250 compliance courses covering all risk topics.

In addition to having the greatest variety of courses, Regulatory University also offers content that is continually refreshed with new compliance information, cases and exercises. You also have the ability to customize your institution's compliance training program by developing or editing your own content.

With its breadth of course content and advanced LMS, FIS provides the industry's pre-eminent best practices-based curriculum assignment system so that an optimal compliance training plan can be devised and deployed throughout your enterprise.

## Highly Effective eLearning

Regulatory University offers courses developed to cover emerging risk issues in a manner that strikes an optimal balance between substance and form. These courses teach your employees not just the "What?" but also the "Why?" and "How?" to ensure compliance.

Courses incorporate:

- Real-world scenarios based on actual cases or enforcement actions to maximize learning
- Frequent pop quizzes with immediate feedback
- Pop quizzes that are tracked, and feedback that is provided to a learner prior to taking the test

## A Differentiated Training Solution

In addition to a number of key features and benefits, Regulatory University offers:

### Risk Dashboards and Detailed Analytics

Regulatory University provides a state-of-the-art LMS with the industry's most advanced reporting, analytical and productivity tools for managing learning, enterprise-wide. The LMS' robust tracking and reporting capabilities allow you to quickly identify where and who your risk is. Risk dashboards with detailed analytics and trend analysis provide key metrics enterprise-wide, and all reports are detailed and designed to meet or exceed all regulatory requirements and expectations.

### Enhanced Curriculum Management

Assign courses by regions, branches, groups and job function. Rely on our one-of-a-kind Curriculum Assignment Best Practices Guide to efficiently and effectively meet regulator expectations. Facilitate a blended training approach using our patent pending Easel for instructor-led sessions and our Classroom Manager to track attendance at live seminars.

### Custom Content Manager

Our easy-to-use Custom Lesson Manager allows you to customize existing courses by incorporating your policies and procedures or create a new course from scratch.

### Survey Wizard

Save time and money by easily building and distributing custom surveys on any topic you choose, including items not related to compliance. Results are automatically tabulated using our robust reporting system.

### Compliance with AICC and SCORM

If you have your own LMS, don't worry – our courses can be deployed via AICC or SCORM from your LMS.

## About RISC Solutions
