WHY INTEGRATED PAYMENTS IS RIGHT FOR YOUR BUSINESS

Fast, reliable and secure payments for your POS

Easier reconciliation saves time and wages
Reduce duplicate accounting effort. There's no need to match reports from the terminal and the POS.

Faster transactions shorten lines and keep customers happy
Running one transaction at the POS is faster than using both a terminal and POS.

Fewer errors and chargebacks improve profitability
Keep customers happy and avoid chargebacks by reducing duplicate transaction input errors and the risk of incorrectly entered amounts.

One-stop payment customer support
Eliminate time-consuming finger pointing at the "other guy" to solve payment processing related issues. Customer support from Worldpay Integrated Payments is offered 24/7 so you can get help when you need it.

Secure payment processing tools
From chip card acceptance to point-to-point encryption to tokenization, integrated payments offer the tools you need to combat fraud and protect your customers' data as well as your business.
