

FIS PAYMENT HUB – STANDARD EDITION

A Cloud-native, SaaS-based Payments and Global Bank Connectivity Solution

The centralization of payments processing has long been a costly, complex and resource-intensive effort – and treasurers with many international banking partners can struggle to establish standardized, secure connectivity channels. At the same time, new innovative technology presents opportunities and challenges, regulatory developments are amplifying compliance, and the threat of payment fraud has escalated with the adoption of more sophisticated techniques.

FIS® Payment Hub – Standard Edition is a payments and global bank connectivity solution that helps corporates centralize, standardize and process payments quickly and at scale.

Offered on a cloud-native, SaaS platform, it easily integrates with back-office and treasury systems, and provides a full suite of payment workflows, statement reporting, fraud screening and bank connectivity as a service with thousands of banks across the globe.

FIS Payment Hub – Standard Edition converts consolidated payment data into bank specific formats and sends them to banks/PSP providers for execution, while supporting bank messaging, payment acknowledgment and bank statement reporting requirements.

CURE YOUR CONNECTIVITY HEADACHES

Eliminate costly individual connections and securely connect to your banking partners around the world.

HARNESS INNOVATIONS

Access the latest advances, including SWIFT GPI, API and real-time payments for faster, more secure transaction processing.

INTEGRATE EASILY WITH KEY SYSTEMS

Integrate seamlessly with ERP technology, FIS and third-party treasury solutions – and access domestic payments capabilities in 200 countries.

FIS PAYMENT HUB – STANDARD EDITION

REDUCE COSTS

FIS Payment Hub – Standard Edition reduces global transaction banking and cross-border payments processing costs by optimizing channel and payment types.

MITIGATE RISK

Our standardized workflows, best-in-class controls and full audit capabilities strengthen the security of your payments.

SET UP BANK COMMUNICATIONS MORE QUICKLY

Our centralized team maintains a pre-built library of bank connection protocols and formats, making it easy to set up bank communications.

Simplify your global payments processes.
